

Tunis Stock Exchange in Support of SOS Children's Villages Programs

Under the patronage of Ms. Amel Belhadj Moussa, Minister of Family, Women, Children, and the Elderly, the Tunis Stock Exchange, in collaboration with SOS Children's Villages, organized a day on April 5, 2023, entitled : « The Tunis Stock Exchange supports the actions of SOS Children's Villages;»

Every child needs someone to whom they can give a drawing, a craft project, or a bouquet of flowers. For children, it's a way of saying, "You are important to me." But what happens when a child has no one around them?

More than 31,000 children in Tunisia are at risk of growing up without such a person. Together, we can change things.

In addition, as part of its membership in the Sustainable Stock Exchange Initiative launched by the United Nations, the Tunis Stock Exchange is committed to promoting CSR within the ecosystem, particularly among listed companies, in order to highlight their commitments in this area and to sustainable development.

Because even a small gesture of humanity can make a big difference in a child's life, SOS Children's Villages in Tunisia and the Tunis Stock Exchange have signed a partnership agreement that aims to achieve several objectives, including the organization of an annual awareness-raising event called **"Stock Exchange of the Heart: Investing in the Future of Children without Family Support."**

Our Corporate Social Responsibility policy encourages us to seize the opportunity presented by this partnership between the Tunis Stock Exchange and SOS Children's Villages, for the benefit of children without family support.
